

We are each of us angels with only one wing, and we can only fly by embracing one another. ~Luciano de Crescenzo

Past life Regression Therapy

Have you ever traveled somewhere new only to feel like you have been there before?

Or maybe you feel very attracted to certain people or places and don't know why.

Perhaps you have phobias and fears that simply don't make sense. Many people experience profound life changes after taking a journey back in time and discover a real understanding of their life purpose.

It is important to feel comfortable and safe and to ask all questions you need to before making the decision to be regressed. This type of therapy can also be used to help with memory loss or "blank" spots in your life.

If you are interested in allowing me to share this journey with you, please call and book an appointment.

Psychic Readings or Medium Consultations

I was born into this life with many gifts that have at times been confusing, but have always been enriching and amazing. For the past 35+ years I have been doing readings for people from all over this planet. The Internet has allowed me to assist clients from faraway places that I would never have had the chance to meet otherwise.

I am available for readings online, in person, at your home or mine.

Paranormal Investigations by 3rd Eye Investigations

Do you have a haunting we can come and investigate? Or would you like to join us on our adventures and experience things for yourself? Let us clear the energies in your home and free any unwanted guests. We are always respectful of your privacy.
